COMMUNICATION - OPPORTUNITY - EDUCATION

## OUR SPEAKERS

Ms Ngaire Cannon has been working in the Chiropractic profession for 43 years. She is one of the greats when it comes to CA training and is known worldwide for her wealth of knowledge and passion for Chiropractic.

A dynamic and vibrant speaker, Ngaire will leave you inspired about what you can achieve as a CA as she illustrates just how important your role is in the success of your practice and for Chiropractic in general. It is an honour to have Ngaire draw on her experience to present us with her ideas and views on the CA of the future.

\*\*\*\*\*

Dr Laurence Tham is a Wellness Chiropractor and Chiropractic Coach from WA.

He is a graduate from CMCC and originally from Canada and is now a regular speaker for Dynamic Growth Congress. His recent talk in DG Brisbane called "Chiropractic 2.0" created a buzz that many have now labelled him as a "Thought Leader" and a "futurist" for chiropractic.

## OUR SPEAKERS

His passion beyond practice has been consistently looking for trends to help Chiropractic prepare for the future in addition to helping others achieve the best in themselves. Dr. Tham will be providing us with the insight into the direction that Chiropractic and our society is heading and the role that the Chiropractic Assistant plays in this.

\*\*\*\*\*

Dr Patrick Sim has done a lot in his time. He has been on state registration boards, spent time as state association president, and served on the National board of the CAA. Patrick has been a spokesperson for the profession for almost 10 years and

has featured in more than 500 media articles on chiropractic. Patrick runs a practice in the Adelaide Hills which he describes as "cool, funky, warm and uplifting". He feels Chiropractic Assistants are vitally important for the success of any practice, and are equally important in the care of the community. This year Patrick will delve into some of the philosophical, social and scientific reasons for scheduling care, understanding the body and recommending people to see your chiropractor.
