# The Original Chiropractic Collection

## Sleepmaker® THE ORIGINAL CHIROPRACTIC COLLECTION

The Sleepmaker Chiropractic Collection is the only range designed in conjunction with, tested and approved by the Chiropractors' Association of Australia.

The Sleepmaker Chiropractic Collection offers the latest technology and a choice of comfort levels to meet your individual body shape, size and lifestyle.

### The Chiropractic Approved Bed

A bed that is too firm will elevate the hips and shoulders, causing the spine to sag in the lower back region. Similarly, a bed that is too soft will cause the spine to sag at the hips, resulting in both localised pressure on the spine, that can lead to fragmented sleep and longer term health problems.

The advanced graduated zoned spring system includes a range of features that provide correct spinal alignment for healthy, invigorating sleep. The graduated zoning and unique coil formation increases support for the heaviest parts of the body and lower back, reducing mattress sag and the detrimental effect it can have on your spine. The body contouring zones not only gives more support where needed but also provides a more comfortable, restful sleep.

- Silk blend fibre
- Conforma soft

Which provide a luxurious sleep surface that retains loft for longer.

#### Support System

- Zoned support spring system that helps maintain correct spinal alignment and provide the ultimate support for your body

## General Features and Benefits of the Sleepmaker Chiropractic Range

### Firm Edge Support

All beds within the Sleepmaker Chiropractic range will be encased with firm edge support, that extends the sleep surface and prevents that “roll out of bed” feeling.

### Ultra-Fresh

All foams are treated with Ultra-Fresh, this provides antimicrobial protection which inhibits the growth of common bacteria and dustmites.

### Corner Guards

The use of corner guards and castors help protect the mattress and base from wear and tear.

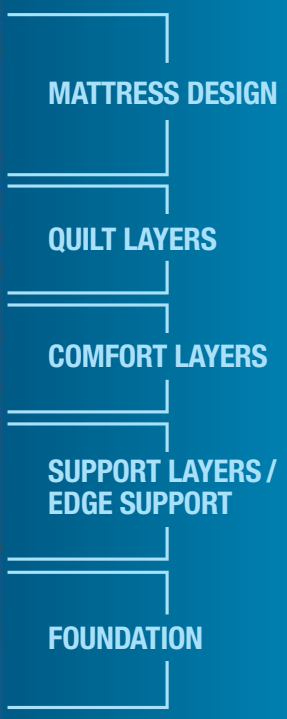

### Stretch Knit Fabric

The premium stretch knit fabric cover adjusts with body movement and has a soft feel against your body.

### PowerFirm Base & Platform Base

Both the PowerFirm and Platform bases are used for the Sleepmaker Chiropractic Collection. These bases work in unison with the mattress and provide ultimate support and less motion transfer with in the bed.

## What’s Inside Your Bed?

### CHIRO CONTOUR 300

- Cushion top design
- Premium Stretch knit fabric cover that adjust to body movement

#### Quilt Layers are made up of

- Reacta Foam
- Pillofoam that contour immediately to your body

## CHIRO CONTOUR 100LL

- Deep walled pillow top design
- Premium stretch knit fabric

### Quilt Layers are made up of

- Silk blend
- Conforma soft

All of which provide a luxurious sleep surface.

- Visco Elastic and Talalay latex comfort layers in the pillow top that contour to your body and help relieve pressure points

### Support System

- Latex support that conforms naturally to your body and provides support where you need it most

## CHIRO GEL 200

- Deep walled Gel pillow top design that provides cloud like comfort, ideal pressure relief & support for your spine
- Premium stretch knit fabric

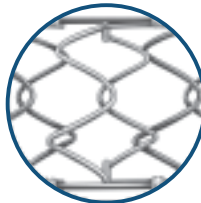

### Quilt Layers are made up of

- Silk Blend
- Conforma Soft which provide a soft feel against your skin

- Gel comfort layers that moderate the body temperature, providing a healthier nights sleep

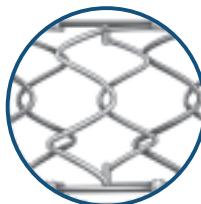

### Support System

- Zoned support spring system that helps maintain correct spinal alignment and provide the ultimate support for your body

## CHIRO KIDS 300

- Cushion top design
- Damask fabric cover
- Pillofoam quilt layers and medium cushioning that provide support for the growing body

## Visco-Elastic Foam

Visco-Elastic foam has been developed to have a slower recovery time and a lower temperature at which the foam hardens.

This means that Visco-Elastic is more effective in reducing pressure points, and its comfort level, feel and support remain constant over a wide temperature range.

### Key Benefits

- **No Partner Disturbance**  
Move freely without disturbing your partner
- **Pressure Relief**  
Less pressure points improves comfort
- **Immediate Comfort**  
No need to wait for mattress to mould to your body

## Latex

Latex is an ideal material for bedding as it naturally adjusts to the contours of the body, alleviating pressure points to provide orthopaedic support and outstanding comfort.

The major factor that determines the quality of Latex is the quality of processing. The blending of natural and synthetic Latex rubber is vital in producing high quality Latex bedding.

### Key Benefits

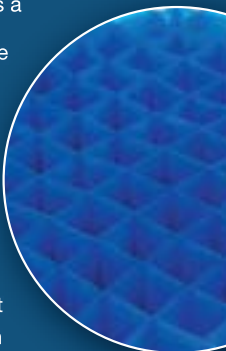

- **No Partner Disturbance**  
Move freely without disturbing your partner
- **Naturally Anti-microbial**  
Great for asthma and allergy sufferers
- **Responsive Comfort**  
Conforms perfectly to the body with no springs

**DUNLOP PROCESS LATEX** has 'pin holes' in both the top and the bottom of our Latex cores to allow air to circulate within the mattress.

**TALALAY LATEX** is the only Latex with an open cell structure, which creates a consistent and high quality Latex mattress with outstanding durable and rebound qualities.

## Gel

Gel material is made from many hollow columns of soft, very strong rubbery gel that is derived from Natural Mineral Oil. It provides cloud like comfort that relieves pressure and assists with circulation. It has a temperature neutral sleep surface keeping you cool in summer and warm in winter.
